Professional Summary

Detail-oriented and passionate Python/SQL/PowerBI Data Analyst pursuing long-term growth as an effective team member. Motivated to learn and be a part of leading Company where can further develop, contribute and grow.

Skills

- Python
- Pandas
- Power BI
- SQL
- Tableau
- Figma
- Agile
- HTM & CSS
- Training and Development
- Teamwork and Collaboration

Education

2023

Python OOP, SOFTUNI SOFTWARE UNIVERSITY - Sofia Bulgaria

- SOLID principles
- Iterators and Generators
- Unit testing
- ...

2023

Python Advanced, SOFTUNI SOFTWARE UNIVERSITY - Sofia Bulgaria

- Stacks & Queues
- Tuples & Sets
- Multidimensional Lists
- Working with Files
- Functional programming
- ...

2023

Python Fundamentals, SOFTUNI SOFTWARE UNIVERSITY - Sofia Bulgaria

- Programming structures such as lists, Classes,
- Objects Classes
- HTML and CSS
- ...

2022

Python Basics, SOFTUNI SOFTWARE UNIVERSITY - Sofia Bulgaria

- Programming skills, required for all educational paths in the Software University
- ...

2023 ● MS SQL, SOFTUNI SOFTWARE UNIVERSITY - Sofia Bulgaria

- Extraction, selection, joins
- Aggregation, grouping
- Deletion and insertion
- ...

2022 ● Fundamentals in Mathematics, SOFTUNI SOFTWARE UNIVERSITY - Sofia Bulgaria

- Discrete mathematics
- Probability, Statistics
- Linear algebra
- ...

2023 ● Power BI, Maven Analytics PowerBI - Online

- Connect Transform Raw Data
- Calculate Columns & DAX Measures
- Dashboard Design
- Artificial Intelligence
- PowerBI Optimization Tools
- . . .

2023 ● Data Analysis With Python, Jovian - Online

- MatplotLib & Seaborn & Numpy
- Analysing Tabular Data
- Exploratory Data Analysis
- . . .

2023 ● Advanced SQL Masterclass, Udemy - Online

- Window Functions/Filtering with EXISTS/NOT EXISTS
- Generating data series with Recursive CTEs
- Defining own SQL Functions
- SQL optimization techniques, including indexes
- . . .

2023 ● Data Analysis With Pandas, Udemy - Online

- Data transform
- Reading data from web
- Pandas data structure
- . . .

2023 ● PowerBI:Mastery, Udemy - Online

- Storytelling with data
- Forecasting and Advanced analytics with DAX
- . . .

2023 ● Report Design With Figma, DataPears - Online

- Programming skills, required for all educational paths in the Software University
- ...

2023 ● Complete SQL-Learn By Doing, Udemy - Online

- Best practices in SQL to perform data analysis
- Window functions, correlated subqueries, set operators, CTEs
- ...

2023 — Excel 2021/365, Udemy - Online

- Analyzing data using PivotTables and representing data visually with charts and PivotCharts
- Advanced features and new Excel formulas
- Adding interactions to PivotTables and PivotCharts
- . . .

2024 — Data Analysis With Excel Pivot Tables, Mavens Analytics - Online

- Mastering unique Pivot Table tips, tools and case studies
- 10 real-world Pivot Table case studies
- . . .

2024 — Data Analysis, DataCamp - Online

- Data Analyst & Python
- Data Analyst & SQL
- Data Analyst & PowerBI
- . . .

2022 — QA Basics, SKILLO - Sofia Bulgaria

- Different test levels and test types
- Familiarity with the concepts of creating test scenarios
- ...
